

Hi

Cadaveria here with the answers.

Sorry for the delay, but I've been very busy.

Thanks

Cadaveria

1/ I'm really surprised to see this name, quite unusual was it easier than thinking for a bands name? or is it more to express your anarchy ? are the bands members ok for this choice?!

1) It isn't a matter of anarchy, but of personality. To use my name for the band is the clearest sign of my intentions, that is to give life to something that belongs to me and depends on me. This new band is the expression of myself, guys who play with me are people who trust me and want to help and support me in this project. Simple, easy, direct.

2/ Are the people in Italy know your real name?! Did you change it ?!

2) Only people who actually deserve or have deserved my confidence in the past. People who work with me and who know me outside and besides music.

3/ Can you tell us what exactly is Cadaveria?! the music , the idea, the reason...

3) Cadaveria is a musical project born in May 2001, when me and Flegias left Opera IX. Some circumstances led us to create a new concept where we can concentrate our energies in complete freedom, where we can play the music we like without boundaries, doing what pass in our minds, talking about what we really trust. Musically the songs are very near to death metal, mixing doom, heavy and progressive. Lyrics are personal and philosophical considerations about life, death, magic, dreams, nightmares, good and evil.

4/ On your site you have started a photo gallery with effects, have you been a model or you would love to ? you have cut your long hair WHY?@! is there any meanings with the music?!

4) Funny what a hat on my head can do! I never imagined that some photos of me wearing a hat would have incited all this interest! I've not been and I don't wish to be a model. The meaning behind these photos is another. I have always loved to change my look, it is like to born again and regenerate myself. It is a way to show how twisted I am. Beware: next time I could be bald.

5/ Is this band was an old project as it started quite quickly and you will obviously make a big impact?! you have a friend with whom you played in your old band, so it wasn't really waht you wanted to do? So why Cadaveria didn't start earlier, is it better now?!

5) Till April 2001 I never thought to start a new band, then some events happened inside the old band, events that hurted my sensibility and forced me to depreciate people who were around me. But sometimes death generates a new life. one month later Cadaveria was ready to fight again.

6/ Do you practice lot of magic, does it helps to pass some bad moment?!

6) What helps me is my will power, the certainty to have a mind that thinks to build and not to destroy.

7/ What made you choosing this voice? Your clear one is really good and beautiful, is it hard to pass from one to the other?! have you practiced this voice, did you sing in a choral or school?!

7) It wasn't a choice, it's just my natural voice, my natural way of singing. I took some lessons for a year, then I had to stop 'cause I was too busy with houndreds of other affairs. Actually my voice is a bit different from how you are used to hear it, is more suffered, desperate, more. true.

8/ After many years in a band that started to get heard, how do you feel to be back in the underground?! do you prefer that way?! sounds more anarchist no?!

8) I never feel myself arrived. I think my actual condition is not so far from how I was five months ago. Fans who loved me will continue to follow my new project. Ten years of experience in the scene are not wasted.

9/ How many songs have you done so far any CD coming up? are u playing any instrument? Do any artwork?! How is it to be “boss” of all these male musicians? would you have female ones?! Do you have any particular message you would like to get out from the deepest darkness of your being?!

9) Actually we have four songs ready. We think the CD will contain about seven or eight songs. All music and lyrics are composed by me, I don't play any instruments but I have a very good ear. Other musicians care about arrangements and sounds. I always worked on the artworks. The new website is an idea of mine and I will personally care about the CD pictures and layout, I really like to do this. I don't know exactly when the album will be out 'cause we are still considering the label, but I'm sure the all work will be a pleasant surprise for everybody. No trend, no limits, no compromises. If you like, this is Cadaveria !
