

Hi again

Sorry late for reply, following is our answer about the interview.

Qu : Quinn (v)

K : Kessier (g)

Thanks for your questions, need anything, please don't hesitate to let me know!!

Best regard!

Kessier  
SERAPHIM

---

1/WHy have you changed your musical style and when? (From Thrash To Power Metal)

Qu:

Actually, we create new elements all the time. Our composer is Kessier, who has different mood to write done three albums, so that make different feeling. But we never change our music style so far... ;-))

2/Have you chosen a female singer 'cos it's better for the sells of albums or 'cos she was the best?! were you looking for a girl?

K:

We didn't think its "must" to chose a female singer for the band, we found the right singer when SERAPHIM'd formed, and it just happend. we did not consider about the albums sells...

Quinn was a "part time" singer for some band's guest, I'm very impress for her amazing voice, when previous singer-Pay decided to leave the band, then we tried to contact Quinn to join SERAPHIM.

3/One of your musician looks familliar, any past bands stories you wanna talk about?!

K:

In fact, Jax(b) & me play a speed metal band called "Firedance" for a long time before SERAPHIM, we had 2 albums for "Firedance", but there dind't released at all.

There's only 2 single released in "Metal Treasure Attic 1" compilation in Taiwan.

yes...it's a long story and a hard time past...

4/ Can you explain me why countries like Japan, so Asian people, always make two differents versions of an album?! Does it help cos people think it's a collector, and how do you manage to get on with this big production?! it's already hard to sell an album...

Qu:

Our mother tongue is Chinese, this language is easy for us besides other country's people. In order to bring our music to everyone, we make nothing of hardships to create two versions. We believe when you understand what it represent, it'll deep into your mind if you care. About how to get on this big production: Because the cause is worthy of our continued support, we done it and kept doing.

5/I've heard some Helloween Thrash Metal era in your music, is it one of your favorite bands and do you think this band helped Power Metal to grow 'cos of the Melodic singers?!

K:

Oh yeah! did we?

Helloween is a good band, it realy helped power metal to grow I think. of course, the amazing singer- Michale Kiske is definitely a one of the best, it is really important to a band! and I love the "Kiske era" of Helloween.

6/ How many bands exist in Taiwan?!

Qu:

I don't know the correct number actually, but I know it's growing up every year. ;-))
